

CORPORATE EVENTS

Whether it's team building, end of season events, family fun days, Christmas parties or just as an awesome way to bring your team together, BATFAST events are healthy, different and will have you smiling and laughing like a big kid!

A BATFAST corporate event can either be a structured event with set teams and set rotations around each activity or can be run on a 'whack-about' basis where participants can have a go on the BATFAST simulator as they please. We've just launched our new corporate events packages, so don't worry about polishing your lawn bowls this year, BATFAST has got you covered.

WHAT YOU RENT

VIDEO SIMULATOR

Unlike a bowling machine, batfast cricket simulators allow you to experience the real experience of being an international batsmen! Our precise technology times the ball release exactly in-sync with the bowling actions of the cricketers you are facing on the screen. Cameras flashing, crowds cheering and opposition sledging, we provide the complete package. The features of our simulators:

- Deliver speeds of up to 70 mph
- Can be used with soft ball or hard ball
- Bowls in swing or out swing
- 5 international bowlers simulated
- Touch screen enabled control unit
- Sound system for stadium sounds
- Sponsors interview area for pre-match interviews

WHAT MORE YOU'LL GET

INSTANT REPLAY

The BATFAST experience combines competition with entertainment. Batsman will hit balls at up to five different targets. These targets are strategically placed inside the net lanes to replicate the cricket gaps in a field. For instance, the gaps between point and cover, cover and mid-off, mid-off and mid on and so on. Based on your expertise, these targets differ. The ways to get out are caught behind, stumped, bowled or lbw, with the spectators using the live camera feed as a mechanism to make umpiring decisions, just like the DRS system.

LIVE SCORING

Our high frames per second cameras are strategically positioned to allow to you watch instant replays, making you feel like an international batsman in the middle of a full house stadium of spectators. Moreover, up to 6 cameras ensure that we do not miss any angle whilst reliving your experience. These can later be edited to form a small innings highlight reel in order to be shared with friends and family. We also provide the added feature of live broadcasting onto social media which allows your event to be shared online instantaneously.

COMMENTARY

The BATFAST experience is designed to provide the batsman with the feel of an international cricket match. Thus with the feeling of playing the World's best bowlers, we have created the ambiance of an international stadium on powerful 400-watt speaker system. We also provide three microphones that enable other users to either commentate, or sledge the batsman adding to the experience.

WHY CHOOSE US

UNMATCHED EVENT EXPERIENCE

We have successful run numerous events nationwide. Some of our events and customers include

VERY SATISFIED CUSTOMERS AND GUESTS

I didn't know cricket will be here today as it is a BIRTHDAY PARTY. I love the guys and crazy experience at BATFAST, and was much more fun than tag rugby" - **QUOTE FROM 10 year old user**

"I was quite overwhelmed by the whole experience. The simulation had some element of adrenaline rush in it. I felt as if I was in a stadium and the crowd was cheering me on. After playing once I wanted to keep playing. Excellent concept and would love to play again" - **QUOTE FROM 29 year old lady**

"The boys managing the BATFAST simulator were fantastic and everyone loved it. My son at least had ten goes denting the wallet further haha. Definite value for money" - **QUOTE FROM father of user**

END TO END SERVICE

We provide a high quality experience from the day you call us to enquire. Our friendly team will understand your requirements and provide you the best advice for the use of the simulator. From then on we will maintain communication to finalise logistics for the event. On the day we will arrive with 2 trained batfast operators two hours prior to the first guest and set up the simulator. Following this we will provide great service throughout the event to compliment our already unique product. Following the event we will ask you for feedback, share the events success on social media, write a blog post and **EMAIL EVERY USER WITH THEIR MUCH AWAITED VIDEOS.**
